Referral List of Licensed Professionals for Testing

Below is a list of service providers who advertise as qualified professionals that conduct assessments, render diagnoses in line with ADA guidelines, and make recommendations for accommodations. We do not endorse any particular service provider over another. Provider contact information, and their ability to take patients at any given time, is subject to change.

Before selecting a qualified professional, it is wise to ask for their credentials, which could include what experience they have working with adults with learning disorders. After the assessment has been completed, request a written copy of the assessment report and make an appointment to discuss the results and recommendations with the professional. Be sure to request additional resources as needed, and always keep a personal copy of the report for your records.

In order to obtain accommodations, a copy of the report (and a completed application) should be sent to Student Disability Services. Please allow up to 10 working days for processing.
